Deadman's Trail

DISTANCE: 2-3 miles

ELEVATION GAIN: 600 feet

ROUTE TYPE: Loop

I enjoyed this hike. There were lots of little side routes to take and explore. Once you get to the top it is peaceful and the view is unforgettable.

What a great trail this was took me about a half an hour to get up to the gazebo taking my time it's mostly uphill coming back down is mostly downhill. Enjoyed myself I am fairly a beginner and this was not that hard at all I just took my time.

I really like this hike. Not too hard and a beautiful view at the top. My only suggestion if you decide to do this hike is to wear pants. There are a ton of plants on the sides of all the trails so you get scratched and poked a lot.
